Profile

I am an 18-year-old just graduated student from Jyväskylä. I studied information and communication technology at Gradia, specializing in software development. Alongside these studies, I have also taken courses at Jyväskylä University of Applied Sciences. Software development has been an interest of mine since elementary school and has continued to this day. Now I am ready for working life!

Languages

- Finnish (Mother's tongue)
- English (B2)
- Swedish (A1)
